

LET'S GO SHOPPING!

Now that we know what money is and how it's earned, we can talk about spending it. Let's pretend you've been earning and saving money. You've saved \$50 to spend on **WHATEVER YOU WANT!**

Let's go to the mall and decide how to spend that \$50.

You can buy more than one item, if you'd like. Keep in mind, you can't spend more than what you have, so there may be some items you're unable to purchase.

(Circle the items you'd like to buy!)
